

approximately hemispherical image, the first and second cameras being attached to each other in a back-to-back configuration.

RULE
1.126

A1
CONCL.

⁵⁹
~~60~~ (New) The apparatus according to claim ⁵¹~~52~~, wherein the first approximately hemispherical lens is coupled to the camera via a fiber optic line, the first approximately hemispherical image received by the first approximately hemispherical lens being transferred to the camera via the fiber optic line.

⁶⁰
~~61~~ (New) The apparatus according to claim ⁵⁰~~51~~, further including at least one of a film for capturing the first and second approximately hemispherical images on a same frame of the film.

⁶¹
~~62~~ (New) The apparatus according to claim ⁵⁰~~51~~, wherein the first approximately hemispherical image is a greater than 180° field-of-view image and the second image is a greater than 180° field-of-view image.--

REMARKS

Prior to an examination on the merits, it is respectfully requested that the present Amendment be entered in the above-identified application. Claims 36-62 are now pending.

Respectfully submitted,
